“This is a challenging track, for sure. This being my first time to the track is definitely showing. I used today to try and get my references for breaking and just trying to get used to being on the track. I improved from the first session to the second, so I hope by tomorrow’s qualifying run we will have a better feel and idea on what really needs to be done to get the Motorola car faster.”

"We were fighting a couple of issues with the Blockbuster car today. We lacked overall grip and the traction is not good right now. This is a very challenging circuit, especially for the new drivers here. I'm finding it really difficult to go fast. All the time is in the curves. We're working on it and hopefully it will come but this place is tougher than most to get up to speed."
