Mario on Qualifying: "We had a good first day. I think the car was fast right off the bat, so the boys certainly did their homework. I like the track here a lot, I've never raced here but always wanted to, and it is everything I expected. It is a beautiful track and I think I learned it rather quickly, so we were able to get right to work and develop the car. Considering we didn't test here like many of the other teams, I think we are doing quite well and we also have some good ideas for tomorrow, so I am looking forward to another good day."

* Noteworthy: Pacific Coast Motorsports is proud to welcome Moorefield Construction to the team for the Grand Prix of Sonoma. Based in San Jose and Los Angeles, the Moorefield Construction logo will be featured on Mario Dominguez's #96 IndyCar throughout the Grand Prix of Sonoma.
